## Profile

MERN Stack Developer with 1+ year of experience in building responsive, high-performance web applications using MongoDB, Express.js, React, and Node.js. Skilled in creating scalable solutions that enhance user engagement and streamline functionality, I thrive in dynamic, fast-paced environments. My hands-on approach to problem-solving and commitment to writing clean, efficient code make me a strong asset for teams focused on innovation and impactful development. I'm excited to bring my expertise to a collaborative team where I can further develop modern web solutions and continuously grow alongside industry advancements.

## Education

**COMSATS University, Abbottabad**

Bachelor of science in Computer Science

- GPA: 3.15 / 4.00

2020 - 2024

Abbottabad, Pakistan

## Technical Skills

**Frontend Development:** React.js, JavaScript (ES6+), Redux, Tailwind CSS, HTML, CSS

**Backend Development:** Node.js, Express.js, MongoDB, RESTful APIs, Firebase, JWT

**Languages:** JavaScript, Java, SQL

**Version Control:** Git, GitHub

**Database Management:** MongoDB, SQL, Firebase, MySQL

**Development Tools:** VS Code, Postman, DevTools

**APIs & Platforms:** Firebase, Google Cloud Platform, Netlify, Vercel, Replit

**Concepts:** Operating System, Backend, Machine Learning, Relational Databases, Database design

## Professional Experience

**Firnas.tech**

Frontend Developer

June 2024 - Jan 2025

Abbottabad

- Joined a startup as a Frontend Developer
- Utilized React.js expertise to develop and optimize the user interface for the search engine "Fazit"
- Automated test scripts, refactored codebase, and enhanced development processes for improved efficiency and collaboration

**InternnCraft**

Full Stack Developer Intern

March 2024 - Apr 2024

remote, Karachi

- Created the "Wellness Wise" website, a platform dedicated to promoting health and wellness content.
- Developed the website using the MERN stack (MongoDB, Express, React, Node.js), ensuring responsive design and user-friendly features.
- Integrated RESTful APIs to manage content and deliver personalized wellness recommendations to users.
- Handled both frontend development using React and backend development with Node.js, Express, and MongoDB for seamless content management.

**CodeAlpha**

Web Development

March 2024 - May 2024

Remote

- Designed and developed a personal portfolio website using HTML, CSS, and React.js to showcase projects and skills as a frontend web developer.
- Implemented responsive design techniques to ensure the website is accessible and visually appealing across various devices.
- Optimized website performance by minimizing load times and improving SEO to increase online visibility.
- Integrated interactive features such as project galleries, contact forms, and smooth navigation to enhance user experience.

## Freelancer

May 2024 – Present

### Web Development

Remote

- Successfully completed over 5 projects involving full-stack development using the MERN Stack
- Delivered custom CMS solutions and e-commerce platforms, integrating third-party services like payment gateways.
- Received consistent 5-star ratings from clients for delivering high-quality projects within deadlines, enhancing client business.

## Projects

---

### Angel Studio: Photo Booth Rental Experience

- Developed "Angel Studio," a platform focused on delivering exceptional photo booth rental experiences to enhance every event.
- The platform combines creativity, innovation, and attention to detail to create unforgettable moments filled with joy and lasting memories.
- Ensured seamless setup and user-friendly technology for an elevated experience at every special occasion.
- **Technology:-**  
Node.js, React.js, JavaScript, MongoDB, Express

### Book Store: Web Application for Book Purchases

- Developed "Book Store," a web application that allows users to purchase books and manage their personal library.
- Provides a seamless experience for browsing, adding, and managing books in the user's library.
- **Technology:-**  
Node.js, React.js, JavaScript, MongoDB, Express, JWT

### UniPortal: Student and Teacher Management Tool

- Developed "UniPortal," a management tool for students and teachers to efficiently manage their records.
- Allows students to track academic progress and access important information. Teachers can manage course materials, student performance, and communication.
- Simplifies record-keeping and enhances organizational efficiency for both students and teachers.
- **Technology:-**  
React, Tailwind CSS, Node.js, MongoDB

### Car Renting Website: MERN Stack Application for Car Rentals and Management

- Developed a car renting website using the MERN stack (MongoDB, Express, React, Node.js) with an admin panel for managing rentals and users.
- **Technology:-**  
Node.js, React.js, JavaScript, MongoDB, Express, JWT

### AGRI APP with Hardware Integration

- Developed "AGRI APP," a mobile application for farmers and renters, enhancing agricultural operations with sensor integration and machinery management.
- Farmers can monitor environmental data (humidity, temperature, soil moisture, NPK levels) using Arduino sensors, while renters manage machinery rentals and orders.
- **Technology:-**  
React Native, Firebase, Arduino, iOS, Android
